The Most Popular Biennial Asia Maritime Event

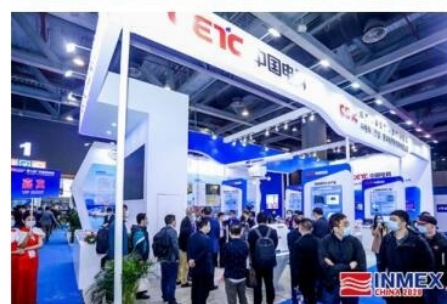

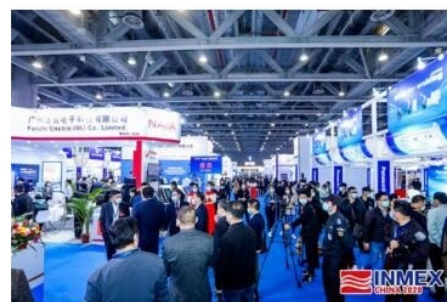

Welcome to the 10th INMEX China

After 16 years of development, INMEX China has grown to be the largest and most popular biennial Asia maritime exhibition. It is a bridge that seeks to link all-rounded and multi-level exchanges and cooperation in the international maritime community.

"The 10th INMEX China Exhibition and Forum" (abbreviation: INMEX China 2022) will be held from 1 – 3 December 2022 at Guangzhou Poly World Trade Expo Center, with an estimated total exhibition area of 23,000 square meters and bring together more than 800 companies from more than 20 countries and regions to participate in the exhibition. The nine exhibition areas are the international exhibition area, the ship enterprises exhibition area, the marine equipment and advanced materials exhibition area, the cruise ship industry exhibition area, the cruise ship (for passengers) interior design exhibition area, the marine pasture exhibition area, the offshore wind power exhibition area, the smart ship and the digital transformation exhibition area. They comprehensively display the most innovative products, technologies and services of the upstream and downstream industrial chains of the marine industry. Under the new era, China's shipbuilding industry has entered a period of high-quality development and technological innovation.

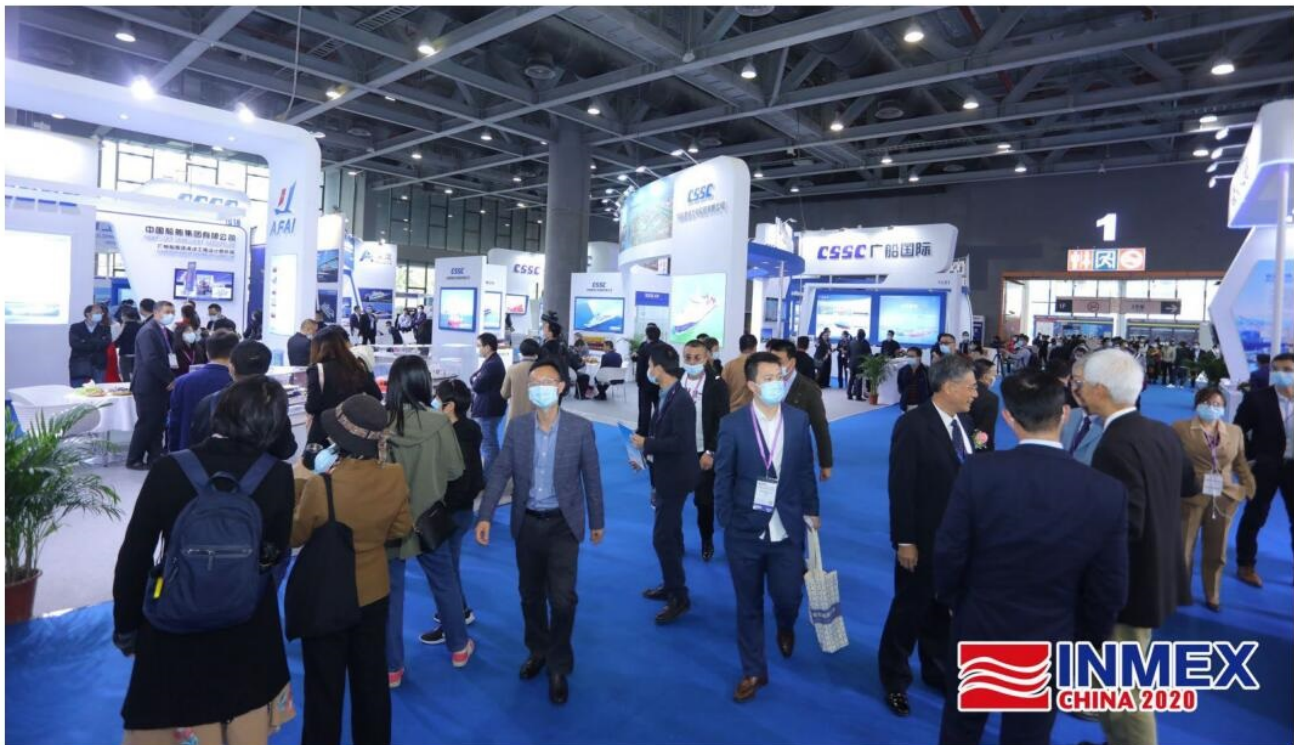

Innovation is the key to speeding up the high-quality development of the shipbuilding industry. Green shipping, smart ships, digitalization, and luxury cruise ships speak for the directions of the maritime industry's current development. INMEX China will conscientiously implement the deployment of the central government to promote the formation of a new development pattern with the domestic cycle as the main theme. The domestic and international spheres will interchangeably promote one another and create new opportunities to actively build a platform for exchanges and cooperation for high-quality development of the shipping and shipbuilding industries to promote China's shipbuilding industry to exert greater influence in the global maritime field.

Participating in INMEX China 2022 will connect you with shipowners, ship repairers, offshore oil, marine engineers, ports and marine equipment, maritime police, port affairs, waterways, salvage, rescue from China and Southeast Asia, Europe, the Middle East, South America and other parts of the world. Much more will show themselves at the INMEX China 2022 such as marine scientific research, marine fishery, water passenger transport and other business decision-makers to conduct business opportunities and negotiation.

The 10th INMEX China

Featured Events

In order to enhance the dynamics, to increase the interactions in the industry, and to recognize outstanding personnel and brands of the maritime industry, the organizing committee will host the “The 2022 Most Popular Award Ceremony” for Chinese shipping, ships and brands. The committee will also host the “Guangzhou Welcome Night Dinner” and “B to B Business Matching” event, so as to provide a “One-on-One” business matching negotiations to suppliers and buyers.

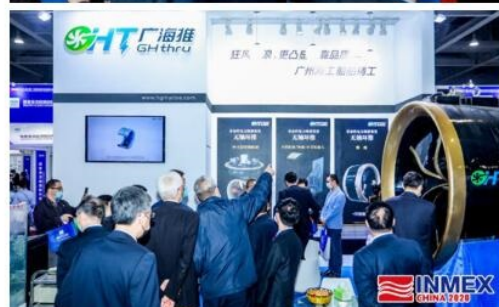

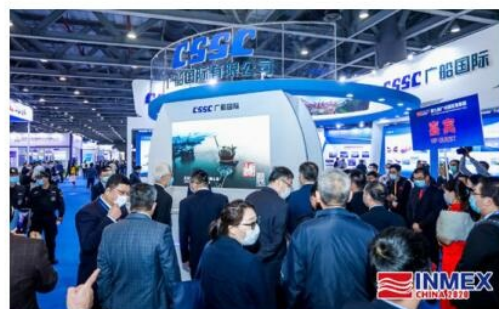

The all-new “One-on-One” VIP Exhibitor Service

The organizing committee has consolidated the aggregate resources of buyers, media, distributors, agents, government authorities, academia and many more associations from the previous INMEX China exhibitions with an aim to provide exhibitors with: EDM promotions, Wechat, Weibo, products and enterprise press releases, exclusive interviews of important figures in the industry, 《Exhibition Product Preview Manuals》, “One-to-One buyer and precise procurement matching”, live advertisements, catalogue promotions, gifts, etc., to provide exhibitions with an all-inclusive tailored service. The VIP Exhibitor Service offers to assist participating companies to achieve effective advertising and promotion.

A review of the 9th INMEX China in 2020

As one of the most important international maritime events in the biennial year, the 9th exhibition will comprehensively display the latest products and technology of shipping, offshore oil, marine engineering, shipbuilding, the fisheries industry, deep-sea development, luxury cruise lines, passenger ships etc. The exhibition stands 11,000 square metre consisting of ship enterprises, marine equipment, marine engineering, shipping logistics services, manufacturing of smart ships, ship navigation, Guangzhou shipping export base, Nantong exhibition areas to provide a wide coverage of the upstream and downstream supply chain of the marine industry. The exhibition offers to actively facilitate the exchange and cooperation in the fields of domestic and foreign marine technology, economic and trade negotiations, ship financing, regulations and rules, and environmental protection etc.

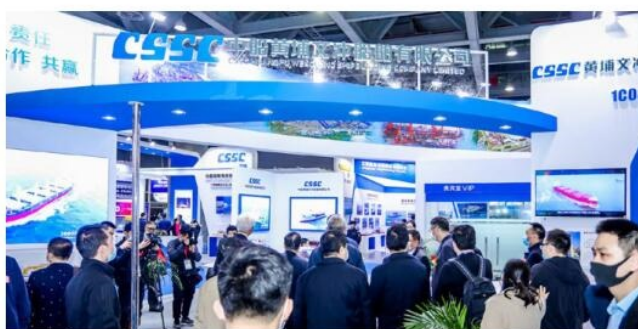

A total of 9,031 local and foreign visitors were attracted to visit the exhibition and make purchases. In addition to having enthusiastic visitors from South China and domestic shipping enterprises at the exhibition, this year's exhibition has also attracted professional buyers from shipping, offshore oil, marine engineering, shipbuilding, ship repair, ports, fisheries, deep-sea development, luxury cruise ships, passenger ships and other government authorities such as the navy, the marine police, the maritime, ports, waterway, fishery administration, maritime security, marine salvage, and marine scientific research. This event has become the most popular maritime exhibition in Asia in 2020.

High-quality Maritime Technology Forum

INMEX China 2020 has hosted a number of high-profile forums, technical exchange meetings and business activities. More than 30 leaders, executives and experts from domestic and foreign government maritime authorities engage in forward-looking and authoritative discussions about the hottest topics on well-known shipbuilding, offshore engineering and luxury cruise ships.

The 2020 3rd Transformation and Upgrading of the China Shipbuilding Industry Development Forum – it was the largest in scale, with the most qualified guests and the discussion about the most updated information about the industry organized by Huanan region. This entire forum, which includes from “Keynote Forum”, “2020 Lingnan Science Forum: Series Activity: the 5th China Green Ship Technology Summit Forum”, “the 4th Marine Technology Development (Guangzhou) Forum”, “2020 Green Shipbuilding and Technological Ship Repairing Forum (simultaneously broadcasted live online)”, “LNG Dual-Fuel Conversion Technology Forum” (also simultaneously broadcasted live online), “The 3rd Guangdong Province Shipbuilding Industry Association, the thirteenth Standing Council, the 3rd fifth Council and the 3rd fifth Members Meeting” etc., which is formed by various themes and activities. The Forums have distinctive themes that offered visitors to explore new issues, challenges and opportunities of the industry. In addition, the Forum has provided the optimal opportunity for visitors to learn and improve, which has attracted over 1500 industry representatives.

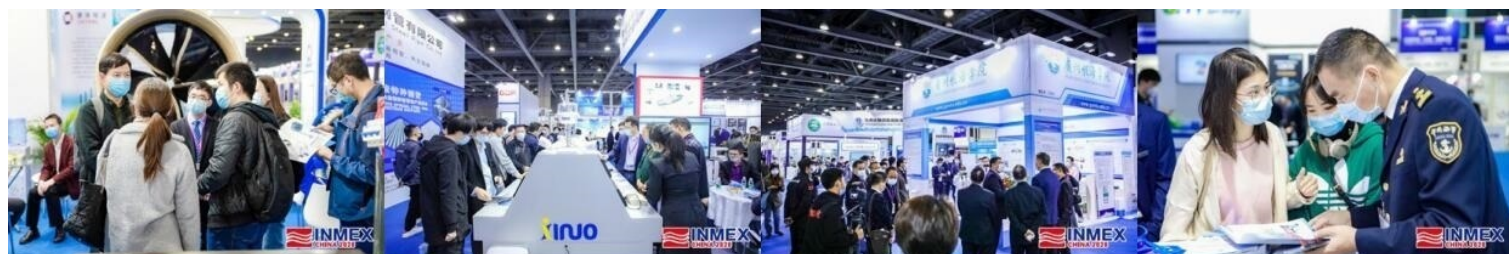

Live Networking Events

On the morning of 9 December 2020, the grand opening ceremony was held at the Poly World Trade Center Exhibition Hall, and more than 300 local and overseas guests witnessed this opening ceremony.

Exhibitors include:

- Ship design and construction
- Docks and shipyards
- Ship Operations and Management
- Ship Registration and Inspection
- Ship Maintenance Machinery & Equipment
- Dredging Equipment
- Ship Navigation and Communication Systems
- Ship Turbine Engineering and Marine Equipment
- Propulsion Systems / Pumps & Valves
- Marine Engineering
- Computer systems, networks and softwares
- Environmental protection equipment and facilities
- Shiplift equipment
- Sea freight and logistics
- Paints and coatings
- Refrigeration systems and freezing systems
- Ports, terminals equipment and services
- Port authorities and terminal operators
- Safety, rescue and protection equipment
- Maritime publications
- Marine environment and safety
- Ship classification society
- Marine fuel and lubricants
- Ports and terminals, port facilities
- Ship financing, insurance and brokerages
- Shipping supplies and shipbuilding materials
- Trade associations and consulting services

Scope of Audience

- Ocean shipping/inland waterways/passenger ships
- Ship trading/brokerage/management
- Navy/Marine Security/border defense
- Maritime management/port operations/dredging
- Marine police/fishery administration/marine scientific research/offshore fishing
- Offshore oil exploration/drilling contractors and engineering services/ocean engineering equipment
- Shipbuilding/ship repair/ship design
- Ship registration/inspection
- Equipment distribution/agencies/import & export trade
- Associations/government/research institutions/media
- Financing/legal services/insurance
- Freight forwarding/shipping agencies

Exhibition fee

Exhibition booth types	Standard booth (min. 9 square meters)	Raw space (min. 24 square meters)
